

TCS WORLDWIDE MOVING FORWARD WITH TIACA MEMBERSHIP

June 2021

TCS Worldwide has taken another step in their development strategy by joining The International Air Cargo Association (TIACA) as an active member effective June 2021.

TIACA is the unique international not-for-profit association representing and uniting all parts of the air cargo industry, including shippers, freight forwarders, ground handlers, airports, airlines, manufacturers, solution providers as well as cargo media, universities and academia.

Joining the leading association in the air cargo industry will support TCS in our future expansion. As an active member we will have access to air cargo companies and logistics organizations on a global scale. TIACA also releases international market information and industry reports to reinforce our strategy. Last but not least: TIACA and TCS share common values like integrity and teamwork.

About TIACA

Launched in the early 1990s, TIACA's roots go back to 1960, when a committee of the Society of Automotive Engineers in the USA launched the first Air Cargo Forum to explore the needs of the emerging air cargo industry. TIACA supports its members and works with industry partners and regulators to advocate and drive change for a safe, profitable and united air cargo industry that embraces modern technologies and practices to sustainably and fairly serve trade and social development worldwide.
